OOMA PHONE

OOMA Home and Business phone is a hidden gem! All you pay is a one-time fee for the Ooma Phone Device of choice to connect to your home internet router or wireless network. The company just celebrated 20 years of service back in 2023. I've had my Ooma Home Phone since 2019 and I made sure my family was setup when we finally cut our uber expensive traditional landline. Ooma provides tons of features and has a mobile phone app so you never miss a call while away from home. Oh, and customer service is available for setup assistance over the phone. **NO Contracts. Cancel Anytime.**

FREE! Just pay taxes/fees
based on your zip code.

- Ooma Basic - \$0.00/month
- **FREE** Unlimited US, Canada and Mexico Calling
- **Advanced Call Blocking**
- **Port existing number for a one-time fee or Choose a New Number FREE**
- **Bring your own cordless phone or purchase an Ooma Phone Systems or Bundle**
- **Address-Based 911**
- **Instant 2nd Line and more...**

NOTE: Some features and pricing may vary.

Call 833-747-2530 or Visit:

BASEUS

From car chargers to earbuds/headphones to security cameras, Baseus has you covered. Known for innovation and minimalist designs for ergo-friendly comfort, Baseus products stood out from the crowd for me. Especially when I decided to upgrade my wired headphones with a clunky talk boom to a nice wireless and true noise-cancelling performance for my work from home gear. However, it had to have quality sound equipped with an equalizer, not fall short on a long playtime straight off the charger and pack some good BASS!

The Baseus Motto is Noise Out, Bass On-Love It!

- **Cushioned Cloud-Like Comfort**
- **SuperBass 2.0**
- **Week-Long Playtime**
- **AI-Powered Voice Boost**
- **ENC Clear Calls**
- **Spatial Accoustics (In the Room Sound)**
- **Mic Sound Sensors**
- **Smart App Control**
- **Adjustable Equilizer to Personalize your Tunes**

NOTE: Some features and pricing may vary.
